'Ibiza Residences' is a group of 10 villas. Well-equipped homes designed to be enjoyed in summer, thanks to their garden and private pool, their terraces, barbecue area and bar (optional); as in winter, with its underfloor heating, library and integrated kitchen.

Another of the particular features of Ibiza Residences is that it has 4 bedrooms, of which 2 are master suites. One on each floor. The master suite on the ground floor has its own private garden. The master suite on the upper floor is synonymous with spaciousness and views with a double dressing room, a desk overlooking the double height of the living room, a relaxation area, as well as an en-suite bathroom. The other two bedrooms are spacious and have a family bathroom with a bathtub, to share.

Its living room is a piece of decoration magazine, with double height, an open-concept kitchen, a cantilevered staircase and large windows to the gardens and terraces.

In addition, it has an area to park the car within the plot. Some of the villas even have, in addition to mountain view, partial sea view from some bedrooms, which makes them even more interesting.
